

CARL R. WOESE INSTITUTE FOR GENOMIC BIOLOGY  
**Postdoctoral Association** presents:

**Special Seminar**

**Monday, October 14th at 12:00pm in 612 IGB**

**Dr. Penelope Shihab**  
CEO and Founder  
Monojo Biotech; Skinue.com;  
Applied Scientific Research Fund

**Converging Paths:  
My Career as a Scientist and an Entrepreneur**

*Born and raised in Palestine, Dr. Penelope Shihab has merged her scientific background with her business acumen. With a PhD in Chemical Engineering and Biotechnology from Cambridge University, she worked to realize Jordan's potential to become a thriving, world-renowned biotech hub.*

*Dr. Shihab founded Monojo in 2005, a Jordanian biotechnology research firm; Skinue in 2014, an American skincare line that makes products from camel's milk, and MyRoyale in 2016, a digital marketing platform.*

*Pizza and refreshments will be provided.*
