

# The America Invents Act

## An Office of Technology Management Update on How Patent Reform Affects University Researchers

The America Invents Act is the most momentous change to United States patent law since 1952.

Join us for coffee as professionals from the Office of Technology Management discuss these significant changes to the patent system, when the changes will go into effect, and how the new system is likely to impact University patent strategy.

**November 29, 2011**
